

PA33WORDS

1. Use a phrase or sentence rather than a single word.
2. Avoid using letters in the order they appear on the keyboard.
3. Substitutes like 'pa33words' for 'passwords' are not as clever as you think.
4. Use letters, numbers and punctuation, both upper and lower case.
5. Change the password frequently.
6. Avoid using the same or similar password for other platforms and accounts.
7. Keep your passwords as random as possible; patterns are like candy for hackers.
